

# What are some positives you see in regards to our practices to ensure student safety?

**Safety is being discussed as a group**

**Like the Common Sense Media program**

**Great information on safety, very specific**

**Appreciate having the officers on campus for safety**

Thankful the district is doing traffic studies, and would like to know if it has been done at all school sites or if it is in progress. Parent is asking for all schools and Norco Elementary in particular.

Like getting notified about anything going on the campus through the broadcast messaging.

**Props to Mr. Calvio for sharing his story**

**Digital Citizenship & Digital Footprint**

Happy to know that security guards in our district are working with law enforcement. It helps her feel more confident and safe as a parent. Also thankful that teachers are trained as well.

**Fantastic information, great resources**

Communications Department does a great job so students, staff, and parents can access for important topics.

Being in communication with Corona PD and other resources to help our students

**Glad that Cyberbullying is being taken seriously!**

I love the improved communication

**media awareness**

**Gaggle and monitoring student digitally**

**videos are amazing!!! For parents and students**

# What are some areas we can improve regarding school Safety?

**What could be next steps for the Parent Advisory Group?**

**Address sexual harassment comments from student to student**

**more cameras at each school site**

**Mandatory Common Sense Media training.**

**Continue to improve in cyber world knowledge. Provide more trainings for our parents, schools and community. (all stakeholders).**

**Would like to see these resources through district communications. Better communication directly to parents**

**Communication to parents about how threats are being handled in the moment to quell fears on more wide scale threats.**
