2021-2022

**Troy Sweet**

How do you capture 35 years of contributions, successes, and impactful differences a revered and respected teacher has made? You read the heartfelt words from staff members, parents, and students Troy Sweet's made an indelible and everlasting mark on.

Mr. Sweet once said to me, "I love what I do. The beginning of each year is just like my first year of teaching. I never wanted to do anything else". This captures the essence of Mr. Sweet. The many site and district committees he's participated in, the countless family events he's shown up for, the multitude of strategies and lessons he has shared with our staff would take up too much writing space to detail. Instead, Mr. Sweet's colleagues' words deliver a beautiful tapestry of impact: Troy Sweet is an amazing person who inspires others to be better. He's generous with his time and genuine in his words and actions. His students are blessed to have such a remarkable teacher. He makes me want to be a better teacher. Mr. Sweet is an incredible man, father, teacher, and human being.

Longevity offers patterns and expectations with a predictability of what to expect. Each spring, Troy Sweet receives numerous requests from parents. They want their child in his class. Parents convey Mr. Sweet is an extraordinary role model. His words and expectations for students match his actions. He pushes students out of their comfort zone, he is there to guide them through difficulties and challenges, and shows up to offer support and encouragement if students fall short. Mr. Sweet instills a love for learning and parallels this with a love of country and fellow human beings. He commands, not demands, respect and students deliver. Many more stories of impact can be found on the stream of Mr. Sweet's Facebook page. Whether indirectly implied in the photos and check-ins former families share or stories directly shared, the character of Troy Sweet is revealed in all of it. The relationships and connections he's formed over 35 years continue to flourish.

Mr. Sweet connects with kids. His genuine concern and want for students to discover, grow, achieve, and learn valuable lessons from history are mirrored back in quotes from 33 years of yearbook memories. Our students love Mr. Sweet for: having fun learning from projects, receiving help when they struggled (in class and with homework), visiting Washington D.C. to be immersed in what was read and discussed in class. Learning how to hit a baseball and how to play football (also winning the championship), and getting help with History Day projects (and going on to County competition). While winning isn't the motivating force, it's a byproduct of hard work and dedication. These memories last a lifetime for a young person. It's Mr. Sweet's ability to take time to find out what a student is interested in and thoughtfully provide learning experiences of all kinds, that opens students' window to dream. A former student wrote "My best memory of school was when Mr. Sweet became my teacher".

Corona-Norco Unified School District  
**SERVICE RECOGNITION—35 YEARS**

2021-2022

**Regina Poyar**

Regina Poyar is an amazing person and educator. Flexible, kind, patient, professional, intelligent, compassionate, and integrity are just a few words to describe Gina. Gina is not just an educator, she is a life changer! Her passion for working with students is one that is rare and one that is admirable. All that have the pleasure of knowing and working with Gina walk away better human beings. When asking peers about Gina some memories and stories were shared:

I first met Gina when she was assigned to Chavez as a Reading Specialist many years ago. It was clear right away that she was extremely knowledgeable about teaching reading, had a strong work ethic, and she really cared about our kids. She recharges teams with new ideas, reading expertise, a positive outlook, and a quick wit. When things would get a little rough, she would share her mother’s favorite quote: “There but for the grace of God go I...” Which describes her humility and faith even when we faced life’s challenges.

My favorite memories of Gina are when we took our teacher “field trips” after school to Pechanga to unwind, play games, and enjoy refreshments. She patiently taught me to play Pai Gow poker, and how to bet on a great blackjack hand. We have celebrated our own kids’ successes ,as well as, the struggles. Gina has always been there for a strong hug during the not so happy times of loss, and she has been there to lend a hand when I needed it most. I feel beyond blessed to call Gina Poyar my friend and co-worker.

Gina was a Reading Recovery stand-out among the group. Her dedication, professionalism, and rapport with students was and is commendable. Gina has always maintained a calm, introspective demeanor and always gives 100%. Gina is intelligent and plans her lessons meticulously and knows her students.

She is one of the very best teachers at teaching beginning readers I have ever known. Presenting with her was always a joy. I respect her a tremendous amount. She supports all school endeavors and areas of focus. She is authentic, holds students first, and maintains current instructional strategies after 35 years of teaching.

Gina is just as real and honest as a person can be, and has contributed to the education of thousands of fortunate students in CNUSD.

2021-2022  
***Hilda Ontiveros***

We are so excited to celebrate Hilda Ontiveros and her 35 years of service with the Corona-Norco Unified School District. With 35 years of service that means that the lives of over 1,000 students have been impacted by Mrs. Ontiveros' dedication, passion, and caring nature.

In addition, to the many students that she has impacted, she has influenced countless fellow teachers through formal and informal mentorship, as well as, just her positive example. With this kind of influence, it is impossible to truly measure the number of lives that she has positively impacted both directly and indirectly.

Mrs. Ontiveros is one of the most passionate teachers that I have had the opportunity to work with. Her caring nature is evident as soon as you walk in the classroom. She creates a warm and nurturing environment where students feel safe and cared about. When she talks about her students, you can see her face just light up as she has made a personal connection with each and every student.

She regularly spreads joy around campus by taking time out of her busy day to compliment you or to share something positive. She loves sharing her passion for learning with her students, as well as, her passion for music. She regularly incorporates her love of music into the classroom and will often have the kids share their songs with the other classes or the staff on campus. Some of these songs; such as, the "We Appreciate You" song have become traditions on campus that all the staff look forward to.

Here at McKinley, we work with the students to instill the 7 Habits in their daily lives and to develop their leadership skills. Mrs. Ontiveros strives to live out the 7 Habits in her own life and is a model for students and staff on how the habits can help you to be a more successful individual. One Habit that stands out in the life of Mrs. Ontiveros is Habit 5 which is "Seek First to Understand then to be Understood".

She has truly made the paradigm shift to understand that one has a greater influence with others if you truly understand them first. This can be seen through her respect, empathy, and her consistent goal to have a mutual understanding. Our School Motto at McKinley is to Lead, Believe, Achieve, and Leave a Legacy.

Mrs. Ontiveros has created a legacy which will last far beyond her time here at McKinley and will impact the lives of the countless individuals who have, and the blessing of knowing her.

Corona-Norco Unified School District  
**SERVICE RECOGNITION—35 YEARS**

2021-2022

***Julia King***

It is my absolute pleasure to write this letter of admiration for Julia King. When I think of what the definition of an educator should be, I think of Julia. In fact, her picture should be in the dictionary next to the word. Over the course of her 35 years as an educator in the district, a low estimate of the lives she has touched is just over 6,500, but I know it is far more than that.

As a teacher, it is difficult to come close to the amount of effort, compassion, and expertise she possesses. Julia connects with every student, every single one, and takes it as a personal challenge to connect with the most difficult. The heart and compassion she shows for not only students, but her colleagues, as well, is second-to-none. This ultimately makes her a champion in the classroom. Because of these relationships, Ms. King is able to pull far more from students than anyone could imagine. Kids will work for her because of the immense amount of respect they have for her, and she for them.

The reason I say she has affected far more than 6,500 students is due to the effort she puts in as a coach, as well. Most recently, Julia has coached our tennis team, and would probably coach football if that is where we needed her. Her positive attitude rubs off on her athletes and colleagues; and builds a positive environment for all. She makes those around her better, the mark of a true leader.

Thirty-five years is no small feat, but Julia is not simply a “put in the time” type of person. I can honestly say she is as strong now as ever, despite all of the challenges faced over the past couple years. Just prior to the pandemic, she took a leave of absence to volunteer her time to help provide dental care to young children in Africa, leaving her mark clear across the globe, leaving a legacy that will live far beyond the confines of the school walls.

Truly, nobody does it better than Julia. She is an inspiration, a leader, and someone who will brighten your day from a single smile or a small conversation. Eleanor Roosevelt High School and CNUSD are better institutions because of Julia’s influence over the past 35 years.

Congratulations Julia on this amazing accomplishment, here’s to another 35 years!

***Debra Jimenez***

Debbie Jimenez is an amazing teacher. Debbie is hard working and is dedicated to a meaningful academic experience for each and every one of her students. She is extremely creative as a teacher and is able to inspire her students to reach greater heights, not just as learners, but also as young people.

After 35 years, some might be happy with the status quo, but not Mrs. Jimenez. She loves using technology, has taken command of it, and uses it regularly with her first graders for a more engaging, interactive learning experience.

Debbie is greatly appreciated by her teammates and colleagues, as well as, the families she serves. She is an active, positive participant who collaborates and communicates for the benefit of her students, her team, and our Susan B. Anthony family. She is a true example of the 5-Cs that are so important to our learning community.

The love that her students, parents, and colleagues show her validates that her passion for teaching has reached so many individuals over the past 35 years.

As one teammate of 28 years states, “my years with my amazing teammate may be limited, but the memories and positive impact made through teaching is priceless.”

2021-2022

**Jethlyn Doerr**

Mrs. Doerr is an amazing, dedicated teacher. She is highly organized and structures her students' day to focus on learning, developing, and achieving success. The students take ownership of their learning environment due to the great classroom management implemented by Jethlyn. She is welcoming, kind-hearted, and compassionate.

Mrs. Doerr is determined to ensure that her students learn and grow to their greatest potential before they leave her care. Jethlyn is a benefit to our entire learning community. She is a team player who is willing to share her expertise and knowledge.

For many years, she was a key member of our leadership team and was willing to be an instructional leader to move our vision forward. Her love of gardening has also benefitted our school. She has planted and nurtured several planters and has played a key part in maintaining a beautiful school for all to enjoy.

Jethlyn taught at Riverview and Parkridge prior to joining Susan B. Anthony in 1997. She taught Kindergarten for 12 years, moved to First for 11 years, and has been back in Kindergarten for 2 years. Mrs. Doerr is heading to cultivate her own retirement garden, but leaves Susan B. Anthony's garden flourishing!

**Karen Clarke**

Karen Clarke is the teacher for whom every parent, school, and school district hopes. In her 35 years with CNUSD, she has taught at Coronita and is currently at Sierra Vista, teaching four different grade levels, and four combo classes. In fact, two of the twelve principals she has worked with, substituted in her classrooms before they even had their credentials.

She has had the honor of mentoring former students to achieve their own goals of becoming teachers. One of which became a teacher at Sierra Vista Elementary where they were able to collaborate as teachers and serve on several committees together.

A teacher by nature, Karen has taught several ELA PDs and taught the 12-week graduate course, Early Literacy In-service Course offered by the district in the early 90s. She also wrote a 6-week parenting class teaching parents how to teach and support their child at home in reading and writing; a labor of love for her.

Demonstrating her commitment to her community, Karen volunteers outside of her teaching hours. She has served in several positions with PTA Boards, including a term as President. She created, and still runs, Sierra Vista's Fall Festival/Trunk or Treat event for the last 21 years.

Karen has shared her love of singing with her students in the classroom and leading several Christmas music programs at Sierra Vista. She also shares her love of cooking by cooking right in the classroom. Many former students ask if she still cooks in class. For most of her 35 years, she has hosted her students and families to a huge family BBQ dinner the last week of school. She is the kind of teacher that current and former students hug on sight whether they are on or off the school campus.

Outside of the classroom, Karen volunteers at her church and sings with the Internationally known group The Gary Bonner Singers with which she has traveled all over Southern California and spent eight days in England.

Corona-Norco Unified School District  
**SERVICE RECOGNITION—35 YEARS**

2021-2022

**Audrey Christner**

Mrs. Audrey Christner is a passionate teacher with 35 years of experience behind her. Audrey began her teaching career at Raney Intermediate where she taught Language Arts and History for two years.

Audrey then left a lasting imprint at Corona Fundamental where she taught Pre-algebra, Algebra, World History, and U.S. History for 29 years. After all of her years in intermediate school, she became a BTSA support provider for three years, where she led and supported new teachers. Audrey then joined the Temescal Valley team where she taught 2<sup>nd</sup> grade and is currently teaching kindergarten.

Audrey is dedicated to her students and their educational journey. She has made a lifelong impact on many students lives. She shares her words of wisdom with not only her students but also with her colleagues. Audrey encourages students to chase their dreams and has positively impacted her students' lives forever. As a kindergarten teacher she guides, inspires, and teaches with heart.

Audrey's colleagues have shared that she is positive and caring to everyone she encounters. She constantly analyzes teaching strategies and seeks ways to best serve kids. She is a devoted teacher who works hard to make sure all her students are learning in a multitude of ways. Her team loves to collaborate with Audrey, and they admire her honesty. Audrey is an asset to the Temescal Valley team.

Congratulations to Audrey Christner for being recognized for her 35 years of service in CNUSD.

**Larry Baker**

Larry Baker has been an instrumental part of Norco High School, the CNUSD school district, and the Norco community.

He started his career in our district helping open Santiago High School and laying the foundation for their PE and football program. As the varsity football defensive coordinator he was influential in the school's early success, helping the program to enter a historically strong football league.

From Santiago, Larry Baker moved to Norco High School where his coaching and teaching have been a warm welcome, allowing him to teach and coach in the community he lives in and calls home. He has helped Norco football to numerous CIF titles as an assistant and head defensive coordinator. He was voted Press Enterprise Coach of the Year in 2013 at Norco High School where he maintained the belief that Norco is "FAMILY" and you work hard for the guy next to you.

Larry Baker and his wife Paula are avid horse riders, and it is only fitting they are a part of the Norco family. Their family includes 2 boys which attended school in CNUSD ,as well as, the many horses they've raised. His love for riding and roping is a passion that he has shared with his PE students, often bringing in his personal equipment to show and allow students to learn how to use.

At Norco, the PE department has prided itself on its unique classes that allow students to experience different forms of fitness activities, and Larry Baker has fit this mold perfectly. He runs the weightlifting class at Norco, a class that has a waiting list to get into every year. This exemplifies how well received he is with the Norco High students. His professionalism and care for the students and athletes he works with has always been evident.

Congratulations Larry Baker for your 35 years of dedication to the Corona-Norco School District and the Norco Community.
